

**State Parks and Historic Sites Closing List
February 18, 2010**

Reductions to OPRHP’s FY2010-112 operating budget will require the agency to close certain State Parks and Historic Sites, as well as reduce services at additional facilities. The affected facilities are listed below:

- 57 State Parks and Historic Site are identified for closure, and service reductions will be implemented at an additional 22 facilities.
- Additional park closings have been avoided through the 21-Day Amendments to the Executive Budget, which authorizes OPRHP to spend \$5 million in EPF funds for parks operations. The EPF restoration avoids the need to close 34 state parks and historic sites, and avoids the need for service reductions at 18 additional facilities.

Those State Parks and Historic Sites that are restored through the \$5 million of EPF parks operations funding are highlighted in yellow. In other words, the yellow highlighted State Parks and Historic Sites will close only if the Legislature rejects the proposal to authorize OPRHP to spend \$5 million of EPF funds for park operations. The non-highlighted facilities are identified for closure regardless of the Legislature’s action on the EPF.
